

Town of Discovery Bay
A California Community Services District
"Friday Letter"
To the Board of Directors
AUGUST 29, 2014

From: Rick Howard, General Manager

General Manager/Administration:

- ✓ Happy Labor Day weekend! Labor Day has been celebrated in the United States since 1887, and constitutes an annual national tribute to the contributions workers have made to the strength, prosperity, and well-being of our Nation.
- ✓ The BIG News of the week was the email I received from the county asking for a meeting regarding the long delayed Park Transfer Agreement. I'm not exactly sure what they plan on telling us, but hopefully, they will have some forward movement. The meeting is scheduled for September 9th. Stay tuned...
- ✓ Sue celebrates her 4th Anniversary with the District next week. Congratulations Sue!

Parks, Landscape and Recreation Services

- ✓ Parks and Landscape crews are busing trimming trees and pruning palm trees that are maintained by the District throughout Town.

Water and Wastewater Services

- ✓ The Influent Pump Station (along with LS "W") project was tested today and passed (pending a small warranty issue), essentially completing the contractor portion of the project. SCADA integration now needs to take place, and the project should be fully online in the next 60 days. This is a project that took a year to complete, and its ice to finally get it close to wrapped up!
- ✓ We have started our water conservation door hanger program. The new hangers, below, let us inform residents that water was seen being wasted (advertently or not), as well as offer tips and resources for residents to learn and obtain additional water saving ideas.

CONSERVE WATER

EXCESSIVE WATER USE WAS NOTED ON YOUR PROPERTY. PLEASE CHECK FOR WATER LEAKS, OVER WATERING, AND/OR USING WATER IN A WASTEFUL MANNER

<http://www.water.ca.gov/>

Water Conservation Tips:

- 💧 Water early in the morning or later in the evening when temperatures are cooler
- 💧 Check your sprinkler system frequently and adjust sprinklers so only your lawn is watered and not the house, sidewalk, or street
- 💧 Water deeply but less frequently to create healthier and strong landscapes
- 💧 Put a layer of mulch around trees and plants to reduce evaporation and keep the soil cool
- 💧 Plant drought-resistant trees and plants
